

Angeliki Saratsi

Angeliki is a founding partner of Politis & Partners, practicing in the areas of Information Technology & Telecommunications, Intellectual Property and Internet & E- Commerce.

Prior to co-founding Politis & Partners, Angeliki was a partner in another major law firm in Athens, handling a wide variety of corporate transactions, including IPOs, acquisitions and disposals, joint ventures and venture capital investments.

She has also acted as chief legal counsel of one of the largest IT companies in Greece and was involved in all phases relating to the bidding and award of a mobile and fixed telephony license and the formation of the operating company which carried out an investment in excess of 100 million euro.

Today, Angeliki provides regulatory and commercial advice to a number of corporate clients in the industries of real estate finance, technology and communication. Her work involves handling new product and business launches, advising on project finance and real estate transactions, acquisitions and disposals, giving day-to-day regulatory advice and liaising with the appropriate authorities.

Commercial & Corporate

Angeliki focuses on advising clients in highly regulated industries on all inherent legal and compliance issues. She also advises them on their corporate law matters. Her extensive experience in commercial and corporate matter is particularly valuable; it allows her to thoroughly comprehend and analyze in depth the complex environment, in which her clients operate.

Recent Notable Cases

- Coordinating a major group restructuring of one of the leading communication agencies in Greece and the EMEA region, which involves a spin-off governed by multiple jurisdictions.
- Advised Netdata on several rounds of venture capital financings (2019 - 2021).
- Advised a **multinational medical devices company** in relation to a debt restructuring agreement for the biggest private sector health provider in Greece in a EUR 500m restructuring transaction (2021).

Projects and Real Estate

Angeliki leads the practice, combining her academic qualifications with accumulated field experience. She regularly advises international and domestic clients on local and international business transactions, with a particular focus on real estate, commercial cooperation agreements and commercial lease agreements.

Notable Cases

- Handled major real estate projects, including the erection of the Henry Dunant Hospital in central Athens and the planning for the creation of the Sounion Technology Park in south Attika directed by the National Technical University of Athens.
